**LA FOLLETTE READS LONG SPEECH TO GOTHAM AUDIENCE**  
\$12,000 HOUSE LISTENS TO MANUSCRIPT OF SENATOR.  
MANY SOCIALISTS Candidate Will Address German-American Society Next Sunday.

[SPECIAL TO THE GAZETTE]  
New York—Robert M. La Follette opened his campaign for the presidency in a formal speech in Madison Square Garden Thursday night.  
It was a peculiar audience, also, in that it had paid from 55 cents to \$2.50 a seat, the money to go toward the campaign fund of the La Follette party. Several hundred persons were there out of curiosity.

The St. Louis German-American Digest of Senator La Follette's speech on Page 13.  
society, which is supporting La Follette because of his war record, will hear the candidate Sunday.  
The bulk of the audience Thursday night was made up of socialists. As it was, there was \$12,000 in the box office when the curtain went up and the chief actor entered to receive an ovation. Other speakers preceded him and the audience was tired when Senator La Follette began to speak.  
But New York is not Wisconsin and the senator, as usual, was too long and too tiresome. He entered upon a long discussion of the supreme court which was dry, and some of the audience, also dry, but most of the crowd remained over the entire speech. The senator read his speech from manuscript, which was something new for him. This morning the senator was to meet Samuel Gompers for a conference, but Gompers was ill and it was not certain whether the meeting could be held today or not.

**POVERTY MAY MEAN HANGING OF YOUTH, 19**

[BY ASSOCIATED PRESS]  
Chicago—A lack of money may have been the cause of the death sentence imposed on him by Walter Krueger, judge of the Cook county court, according to Thomas H. Swanson, Grant's attorney.  
The boy's family exhausted its funds in the trial of the son, who must die Oct. 17, unless he receives executive clemency. How to pay expenses of 20 witnesses to testify before the governor is the family's problem. The family is the family of Krueger, who first implicated Grant and now says Grant had no connection with the killing. It is ready to appear before the governor in Grant's behalf, Mr. Swanson said.  
Meanwhile letters from many sections of the country have been received, the attorney said, expressing the belief that since Richard Joseph and Nathan Leopold, millionaires, sons, were given life imprisonment for the murder of Robert Frank, instead of death, Grant should not be hanged.

Mount Vernon, Ill.—While the body of Mrs. Anna Hight, wife of the Rev. Lawrence M. Hight, held in jail here in connection with the death of his wife, was being exhumed at Metropolis, Ill., today, the sheriff's office here was continuing its investigations of the death of Mrs. Hight and Wilfred Sweetin, both residents of Ida, 12 miles south of here, where the minister had his charge.  
Mrs. Hight died under mysterious circumstances last Friday and was buried at Metropolis, the funeral home of the family. It was after a conference between the state's attorney of this city and of Madison county that it was decided to exhumate Mrs. Hight's body for further examination. A Chicago chemist reported yesterday he had found enough poison in the stomach of the dead woman to cause her death, and that the poison was the same as that found in the stomach of the clerkman was ordered.  
Sweetin died two months ago, and although the coroner returned a verdict of death by natural causes, gossip continued to keep rumors afloat regarding the cause of Sweetin's death. His body was disinterred yesterday in order that the contents of his stomach may be analyzed.

Milwaukee—The simple crosses Wisconsin off the political map of doubtful states with the confident assertion that Senator La Follette will get the electoral vote is missing much of what is happening in the state.  
For there are two factors which, when the ballots are counted, will tend to reduce the vote cast for Robert M. La Follette in his home state. One is the democratic party, which, mysteriously enough, is displaying more activity than is customary, and the other is the republican eagle, where thousands of voters have marked their ballots traditionally. They will no longer find La Follette as of yore.

FAKE SOLICITORS  
FIND WISCONSIN HARDER TO "WORK"  
The fake solicitor and peddler who comes into a town and hopes to prey upon the pocketbooks of the citizens is being stamped out in Wisconsin, according to a statement made by the local Chamber of Commerce.

One surveyor, who is employed by the Chambers of Commerce of Wisconsin, there is no excuse for anyone falling a victim of a fraudulent solicitation or advertising scheme, states Oscar N. Nelson, local Chamber manager. "The moment a faker strikes the state, the information is passed to other cities and his operations are shut out."

Wisconsin has become known as one of the hardest states to work in, and the state is given a wide berth by the centers. Our efforts will continue to bear fruit just so long as the people of Wisconsin will heed the warning and take advantage of the protection offered and do no business with anyone, whether they represent a church, educational institution, patriotic organization or pretend to be earning their way through college, unless they have an endorsement from the Chamber of Commerce. If they claim to have one, have them produce it. No one with a legitimate proposition will ever object to investigation.

## REPUBLICAN PARTY TARGET OF DAVIS

Administration Assailed in Chicago Meeting; 14,000 Cheer Candidate.

(BY ASSOCIATED PRESS)  
Chicago—Having opened his Illinois campaign with an attack on the republican party in an address last night on the south side, John W. Davis, the democratic presidential candidate was prepared today to carry on in Indiana. He will speak tonight at Gary and tomorrow at South Bend and Elkhart.

Cheered repeatedly by a crowd estimated to be around 11,000, Mr. Davis assailed the record of the republican administration in the first three and a half hours and said that if this were the only issues of the campaign he would be content to fight on that line alone in contrast to the record of the eight years of democratic administration under Woodrow Wilson.

Not only did Mr. Davis assail the republican on the basis of the disclosures in the senate investigation at Washington but he went after it on the local level, too. At Washington, the failure of the world court proposal, the insistence of the administration on the Mellon tax plan, the veto of the railroad reorganization pay increase measure and the pension bill.

Moreover, the democratic presidential candidate assailed the record of President Coolidge, emphasizing particularly what was described as "silence" in this campaign; the president's statement with reference to the scandals that the wonder was not that so many have failed, but that so few have fallen, and his denunciation of the senate investigation of the treasury department.

"Personal Liberty" Cheered.  
As much as it cheered the assault on the republicans, Mr. Davis' anti-theatrical got a good deal of his declaration for personal liberty, which he described as the right of religious worship, freedom of assembly, freedom of conscience and freedom against unlawful search and seizure.

As a result from the vigor of campaigning Mr. Davis planned to play golf and see a ball game today.

FIGURE UP LOSSES

New York—A receiver in bankruptcy, aided by assistants, today began an investigation to determine the losses to creditors as a result of the failure yesterday of Day and Horton, a New York stock exchange firm for 52 years.

It is estimated that the liabilities are \$1,700,000 and the assets \$1,000,000.

The firm was suspended from the exchange after five of the six members had given notice that, because of the delinquency and disappearance of the sixth member, George T. Christian, the firm would be unable to meet its obligations.

## EDGERTON CHURCH BUILDS ADDITION

Sunday School Stage and New Pipe Organ Are Installed.

Edgerton—An addition, 12x24 feet, is being built on the Methodist church in the rear of the present edifice and the new stage is being done on the church to make it up-to-date.

The addition is the full depth of the church. It will make possible a large stage in the Sunday school room for presentation of dramas and pageantry. The new stage organ will be housed in the room above.

The organ is a modern 14 stop instrument with Westminster cathedral chimes. Cost of improvements, with the organ, will be \$10,000. Work will be completed about Dec. 1 and a dedication service is planned.

Improvements on the church were made partly possible through a \$5,000 gift of the Hatch family last April. The remainder was raised among the members of the church.

# NO CONTEST OF MUNGER DIVORCE

Case Heard by Judge Grimm Friday Afternoon—Charges Inhuman Treatment.

Papers have been served in the position of Pansie O. Munger, prominent Janesville club worker and active in local county politics, for a divorce from her husband, Percy L. Munger, on the grounds of cruel and inhuman treatment, other than personal violence. The plaintiff was recently named as one of the heirs in the \$375,000 estate of her father, George H. Janssen.

The complaint was prepared before the death of the plaintiff's father and the case delayed for several weeks. The hearing is scheduled to be before Judge George Grimm in the Rock county circuit court this Friday afternoon.

A contest in the case was expected for the defendant had prepared an answer, but it is reported that on the advice of an attorney, the answer was withdrawn and that the suit of Mrs. Munger will not be contested.

The couple were married Oct. 28, 1902 and have two children, Richard L. Munger, 16, and Ruth Louise Munger, 12. The wife requests the custody of the children and petitions the court for an injunction restraining the defendant from occupying the home, owned by Mrs. Munger.

The complaint sets forth a claim of "cruel and inhuman treatment" by the defendant and alleges he made statements reflecting on the integrity and chastity of the plaintiff.

"I'd like to knock you through the wall—I'd like to kill you," are two of the alleged statements outlined in the complaint alleged to have been addressed by Mr. Munger to his wife.

No request for alimony is made in the complaint. The answer made by the defendant was not made public.

The judge and attorneys appear for the plaintiff and the Nolan firm for the defendant.

Several other divorce cases are scheduled to come before Judge Grimm during the afternoon.

## The Contest for Lower Taxes

Nominee for the assembly from the Rock county  
 first district, George W. Blanchard, attempted to  
 get into the state platform a set of resolutions  
 dealing squarely with the taxation and expense  
 questions. It was voted down with violent haste.  
 On the other hand a resolution which falsified the  
 records was adopted, claiming economy and re-  
 duction in cost of government of the state under  
 Blaine, when there is none. Having been written  
 by Mr. Blaine himself it was certain to be adopted  
 without criticism.

Sol Levitan, state treasurer, on being asked  
 what he would do with the surplus piled up in  
 the state treasury, answered that he would re-  
 turn it to the people. Mr. Blanchard wanted this  
 done and evidently that is not the way the Blaine  
 crowd sees it, notwithstanding Mr. Levitan's po-  
 sition.

Mr. Blanchard was specific in his declaration  
 of waste in paying for a superabundant set of  
 commissions and bills of state government. His  
 resolutions shaped the fate of that of the candi-  
 date for secretary of state, Fred Zimmerman,  
 who wanted the emergency law repealed. Mr.  
 Blanchard wrote a resolution which he presented  
 to the convention asking for the same thing. It  
 was voted down. Mr. Blaine knows that if the  
 emergency law is repealed and the burden of  
 making appropriations entirely is placed on the  
 legislature where the constitution says it shall be,  
 he will lose a chance to jockey with a number of  
 persons who are compelled to come for additional  
 aid during the 18 months intervening between  
 sessions. As the head of the emergency board he  
 would lose a certain amount of political pull  
 which now comes by usurping, under the law, a  
 power which by all rights belongs to the people  
 of the state through the legislature.

If the governor wants to "take the government  
 back to the people," let him give up the emer-  
 gency law. Mr. Blanchard fearlessly advocated  
 these measures and it should be remembered of  
 him.

Four old Newberry will look like a piker with  
 his election fund compared with that of La Pol-  
 lette.

## Saving Beet Sugar

We have been making millions of dollars each  
 year for the farmers of the United States in  
 several widely separated localities, from the cul-  
 tivation of the sugar beet. The production and in-  
 dustry has been growing in the last few years.  
 Michigan, Wisconsin, Colorado, and Minnesota  
 have been profiting by beet growing. We pro-  
 duce in the United States and its islands, sugar  
 amounting to about 45 per cent of the consump-  
 tion in this country. Production has been great-  
 ly aided by the tariff on sugar. Democrats and  
 La Follette have been making a considerable  
 amount of noise over this tariff schedule. They  
 speak as though it was a part of the work of  
 "predatory interests." Yet the "sugar trust" and  
 the banks of New York city are the largest own-  
 ers of Cuban sugar plantations and the most bit-  
 ter opponents of a sugar tariff. Mr. La Follette  
 is shoulder to shoulder and hand in hand with the  
 Wall street interests when he opposes the pro-  
 tection to beet sugar growers and the cane grow-  
 ers of the south. He and the sugar trust have  
 the same purpose. The sugar trust which leads  
 the fight against the sugar tariff and La Follette  
 who comes trailing along with his gun loaded  
 with Wall street ammunition, have another helper  
 in Davis. One is not surprised at Davis because  
 that candidate has been fed by Wall street for a  
 long time. Free sugar will put millions of dol-  
 lars in the pockets of the sugar trust and ruin  
 the beet sugar interests of farmers in seven states.  
 But it seems to make a good campaign buncombe  
 for those who do not investigate.

Germany hates to pay the reparations bill about  
 as much as the man with the alimony decision  
 against him.

## Enter, Civilization

When one thinks of Oklahoma he thinks in  
 terms of high boots, a sagging belt with a re-  
 volver hanging near at hand in a holster, a checked  
 shirt with a low collar enfolding a bright hued  
 handkerchief, and all the stuff we have seen in  
 the necessary wild west movies. As for a coat,  
 the only person we have ever seen wearing such a  
 garment in pictorial illustrations of Oklahoma,  
 has been the person who was reading the funeral  
 service over the body of Harsh Hank, the town  
 bad man, gambler and philanthropist, who in the  
 second reel wore a Prince Albert. So when we  
 read that the supreme court of that state has  
 held that a restaurant may exclude any person  
 so vulgar and so lost to the niceties and refine-  
 ments of society as to attempt to eat an order  
 of "ham and" in his shirt sleeves, we are forced  
 to revise all former volumes and to look over  
 some of the recent statistics in the almanac. We  
 are also given to understand that if a wayfaring  
 person carelessly leaving his coat behind finds  
 need of assistance at a restaurant of a certain  
 brand in that state, he may borrow one from the  
 boss—one being kept handy for such emergen-  
 cies. Let no one cast any bunches of asparagus  
 at Oklahoma. Her highest court has held that the  
 restaurant keeper was the arbiter of costume  
 permitted in his place. Coats must be worn and  
 the inalienable rights of the free born American  
 are again sat upon. Civilization has placed its  
 wet paw on a great Nature's last stronghold, and  
 is licking away the tears.

## I—WOMAN SUFFRAGE

By FREDERIC J. HASKIN.

Washington—Woman suffrage is a factor in the  
 governmental system of the United States as the  
 result of the most important change that has  
 ever been made in the nation's organic law. The  
 movement to bring it about dated in an organized  
 way from 1845 when a group of earnest reformers  
 led by Elizabeth Cady Stanton, Lucretia  
 Mott, Martha C. Wright, and Mary Ann McClintock  
 met at Seneca Falls, New York, in the first  
 woman's rights convention in all history. Its real  
 beginning, however, antedates that by 200 years.  
 In 1493 women signed a petition in England for  
 the right to vote, and Mrs. Margaret Brent gave  
 expression to this spirit in the American colony of  
 Maryland in 1647 when, as heir of Lord Calvert,  
 a brother of Lord Baltimore, and executor of the  
 estates of both, she demanded "place and voice"  
 in the colonial legislature.

Mrs. Brent's demand was denied, but short-  
 ly thereafter women property owners were vot-  
 ing in Virginia and Massachusetts. Abigail Ad-  
 ams' famous letter to her husband, John Adams,  
 as a member of the Continental Congress, shows  
 that the suffrage cause had its advocates from the  
 very outset of the struggle for independence and  
 representative government. Mrs. Adams urged  
 her husband to remember the ladies and warned  
 him: "If particular care and attention are not  
 paid to the ladies we are determined to foment  
 a rebellion and will not hold ourselves bound  
 to obey any laws which have no voice or repre-  
 sentation in the colonial legislature."

Adams and his contemporaries evidently were  
 not alarmed by this threat, for the constitution  
 did not give the ballot to women and all of the  
 new states restricted voting to male citizens ex-  
 cept New Jersey, which fixed a property qualifica-  
 tion that applied to both sexes. Women voted in  
 that state until the politicians decided it would be  
 to their interest to put a stop to it and in 1807  
 procured the passage by the legislature of an act  
 not limiting the franchise to white male citizens.  
 The constitution of that state was first amend-  
 ed to give the ballot to women and all of the  
 new states restricted voting to male citizens ex-  
 cept New Jersey, which fixed a property qualifica-  
 tion that applied to both sexes. Women voted in  
 that state until the politicians decided it would be  
 to their interest to put a stop to it and in 1807  
 procured the passage by the legislature of an act  
 not limiting the franchise to white male citizens.  
 The constitution of that state was first amend-

 that state until the politicians decided it would be  
 to their interest to put a stop to it and in 1807  
 procured the passage by the legislature of an act  
 not limiting the franchise to white male citizens.

In all, through the state campaigns that had  
 been made, 15 states had given women full suffrage  
 before the final victory was won. The politi-  
 cians have not hesitated in welcoming the new  
 voters. Both the republicans and the democ-  
 rats have made women vice chairmen of their  
 national executive committees, and have placed  
 women on other important committees, or have  
 made it possible for them to gain places in party  
 organization through election.

Women who are becoming interested in public  
 affairs are at some disadvantage through lack of  
 experience, but they have at least one advantage  
 over the male voter, in that special effort is made  
 to explain the fundamentals of government to them.  
 Boys coming of age have always been drawn into  
 politics gradually. They have absorbed their in-  
 formation and ideas from hearing men talk, and  
 from hearing the traditional type of election oratory.  
 But when so many women without this  
 background become voters suddenly, it was obvi-  
 ous at once that they must be especially in-  
 structed.

One nonpartisan organization that is working  
 toward this end is the National League of Women  
 Voters. The aim of the league is to "educate women  
 in an intelligent vote." It conducts citizenship  
 classes and schools, distributes nonpartisan in-  
 formation concerning candidates, and sends out  
 speakers, all in the interest of making clear to  
 women the important business of casting a ballot.  
 While it is not easy to show plainly that every  
 vote cast has far-reaching effects, and while it  
 is still more difficult to show that the effect of a  
 vote comes back upon the voter in unexpected  
 and indirect ways, yet these are the facts that  
 women are urged to grasp in order to become level-  
 headed and intelligent voters.

The prediction that could not use the  
 ballot is sold by the League of Women Voters to  
 have proved groundless, although it is a fact  
 that the United States has too many nonvoting  
 voters of both sexes. Amendments to state con-  
 stitutions have been carried by less than 8 per  
 cent of the voting population, because the voters  
 ignored their own interests. It is estimated that  
 only 49 per cent of the qualified voters went to  
 the polls at the 1920 presidential election. As the  
 votes of men and women are not counted sepa-  
 rately in many states, it is impossible to make ac-  
 curate comparisons along this line. It is said,  
 however, that as many as 55 per cent of the women  
 voters cast ballots in some of the states. The  
 League of Women Voters tells of one town in Ne-  
 braska where interest in voting was so keen that  
 every woman voter in town turned out on election  
 day except one who was sick in bed. Such a  
 complete return is obviously impossible in most  
 communities. There must always be an indefinite  
 percentage of voters who are ill, away from home,  
 or otherwise unavoidably detained from the polls.  
 The specific aim of the league is to get out 75  
 per cent of the possible vote, both male and fe-  
 male.

Ingenuous devices are used to keep the duties  
 of citizenship before the women of the country.  
 In Canton, Ohio, the cooperation of the dairymen  
 was obtained to remind each household of regis-  
 tration duty. In the morning, every bottle of milk  
 delivered in Canton was a paper  
 collar on which was printed in stirring letters:  
 "Registration Day. Don't forget to register!"

All these campaigns to interest women in vot-  
 ing and the results of the campaigns indicate that  
 the woman voter is taking a serious part in go-  
 vernmental affairs in general. Along only one line  
 are women more or less organized as a sex.  
 That is in regard to welfare measures, and it is  
 certain that there is now an unprecedented  
 amount of interest manifested in child and hu-  
 man welfare. The Sheppard-Towner Maternity  
 Law, which enables the states to do more for the  
 health of mothers and babies, is cited as an ex-  
 ample of women's influence.

The Cable Act, by which women who marry  
 foreigners are enabled to retain their American  
 citizenship, is another piece of legislation which  
 principally affects women and which is generally  
 attributed to their efforts.

(To Be Continued.)

The young cashier of the Lodi bank thought  
 he would not rich faster than through his salary  
 in a country bank if he only put enough money  
 into a business where the dividends were large  
 in promise. In actual fulfillment they were noth-  
 ing. He had been trusted with securities for  
 safe-keeping and he betrayed that trust. He got  
 nothing but a bad name, a few hours of bitter-  
 ness, a death by his own hand. It was a high  
 price to pay but it has been done by others. To  
 each such a man, weak and wavering, there  
 comes a time when he must walk up to the cap-  
 tain's office and settle.

Maybe Mr. Coolidge is "Silent Cal" but what he  
 asks is how long is it since Hiram Johnson lost  
 his power of speech?

### WHAT A MAN LIKES

This is what a man likes: a blue sky and a  
 stream.  
 The lily pads off yonder and the shore with gold  
 algae.  
 The west wind gently blowing, for then, the fish-  
 boat sure.

This is what a man likes: a day away from  
 things.  
 A day where dreams are golden and malice  
 never stings.  
 A friend to read his heart to, who'll keep the  
 tale secure.  
 A reel that's running freely and a bass to take  
 the lure.

This is what a man likes: a chance to test his  
 skill.  
 The hazard of disaster and a struggle's surging  
 thrill.  
 The joy of honest hunger and hardships to en-  
 dure.  
 The guile to fly above him and a bass to take  
 the lure.

This is what a man likes: a friend to share his  
 luck sure.  
 The freedom of the open, an old and shabby  
 coat.  
 For all the aches of failure, 'tis here he finds  
 a cure.  
 A haunt, a made for fishing, and a bass to  
 take the lure.

## HOROSCOPE

SATURDAY, SEPTEMBER 20, 1924

Although Mars and Uranus are in malefic as-  
 pect early in the morning, Neptune exercises  
 friendly power later in the day, according to  
 astrology.  
 Talk of international difficulties may be pre-  
 valent and warning is given that trouble will be  
 fomented at this time by unscrupulous persons.  
 Jealousy and envy may be widespread and  
 most menacing to social and industrial condi-  
 tions.

Both men and women are likely to be strong-  
 ly affected with selfishness and should seriously  
 avoid egotism which will dominate many.  
 Again there is a favorable sign for oil and all  
 interests connected with it. A little more ex-  
 traordinary demand on world resources.  
 Neptune appears to promise clearer vision on  
 public questions, but there will be much wild  
 and futile talking, if the stars are read right.  
 There is a sign which bodes ill for the  
 beginning of an ocean voyage and predictions are  
 that many Americans will make late vacation  
 journeys.

November is to be a time when army and na-  
 vy activities in Great Britain interest the whole  
 world.  
 An early winter is denoted for many parts of  
 the country which may expect freak weather  
 that will cause much travel south and west.  
 There is a sign which bodes ill for the  
 beginning of an ocean voyage and predictions are  
 that many Americans will make late vacation  
 journeys.

Women probably will come into a time of  
 great awakening to iron interpretations of lib-  
 erty and democracy.  
 Again decided changes in costumes and fash-  
 ions are prognosticated and these will be reac-  
 tionary, the seers prophesy.  
 Persons whose birthdate it is should stick to  
 whatever niche in life they happen to occupy  
 this year. Business affairs may be rather un-  
 settled.

Children born on this day probably will be  
 exceedingly fond of travel and change. They  
 will probably have many Libra characteristics.

## Personal Health Service

By WILLIAM BRADY, M. D.

Noted Physician and Author.

### WHAT'S A WART WORTH?

There is an interesting letter from a  
 Baltimore man:  
 "Dear Doctor: Your advocacy of  
 annual medical examination and re-  
 moval of warts by regular physicians  
 will hardly meet with popular ac-  
 ceptance."

"I decided to have some warts  
 (three) removed as you suggested.  
 The medical man's office, who re-  
 fused a list of skin specialists, so I  
 got two names from you. One of the  
 skin specialists you recommended  
 only considered appointments only.  
 The other would charge \$5.00 to re-  
 move them. So I got a reference to another  
 skin specialist from a practitioner I  
 had met socially. This third specialist  
 would charge \$5.00 for each wart re-  
 moved. When I said, 'I would think if  
 over' he stated that his fee included  
 \$10 for examination. I simply pointed  
 out to him, a one-fourth minute  
 glance, and when I started to leave he  
 demanded \$10. He didn't get a cent,  
 but I got mad and decided the less I  
 saw of doctors the longer would  
 survive. When I go on my vacation I'll  
 remove the warts with country milk  
 weed gristle."

"Evidently skin specialists regard  
 removal of warts as a rich money  
 seekers. Your advice is absolutely  
 foolish. Very truly yours,  
 "C. M. G."

My advice was genuine. The doctor  
 I recommended would have re-  
 moved the warts at \$3.33 apiece, which is  
 quite reasonable. I should say, as  
 compared with \$10 a look. However,  
 if one would rather pay a little for  
 milk weed gristle for nothing, why  
 pay a doctor to do it. The milk weed  
 is a natural remedy, which should be  
 used. It is in the same category  
 with pork rind stolen from your  
 grandmother, and these quaint super-  
 stitions are harbored nowadays by  
 little boys who believe warts come  
 from handling toads.

A wart comes and goes without ap-  
 parent reason. Sometimes flocks of  
 warts appear on the face, neck, arms,  
 and disappear in the same mysterious  
 way. This characteristic probably  
 accounts for the innumerable fallacies  
 regarding the cause and the cure of  
 warts. If you happen to have your  
 warts after you have put milkweed  
 or pork or castor oil or something on  
 them, it is natural to assume that  
 your treatment did it.

There is some evidence that warts  
 are caused by some specific organism  
 or germ. Some authorities have pro-  
 duced warts by inoculation of ma-  
 terial from other warts. That would  
 suggest that warts may be slightly  
 contagious. Children seem to have  
 them more than adults. Children's  
 hands are very dirty and they have  
 many varieties of dirt then do adults.

Often, not always, vigorous soap  
 and water scrubbing of the warts and  
 surrounding skin to the limit of en-  
 durance, and then a single coat of  
 tincture of iodine, this repeated at in-  
 tervals of five days or a week for two  
 or three times, will apparently cause  
 the warts to disappear. Of course,  
 nothing like this should be tried for  
 warts about the face or head. In  
 fact, I should advise that no amateur  
 treatment be tried for warts about  
 the face, but that such warts  
 should be treated only by the sur-  
 geon.

A single wart is usually best ex-  
 cised, under local anesthesia.  
 Still, there may be warts ex-  
 treated with X-rays, or radium, or  
 with fulguration (sparkling with high  
 frequency current) or by freezing  
 with ether.

The familiar corn remedy—25  
 grains of salicylic acid dissolved in  
 half an ounce of flexible collodion—is  
 a good wart remedy. It is for corns  
 when induced on the wart daily for a  
 week or more.

How much it may cost is of no in-  
 terest—the question is, how much is  
 your life worth?

**QUESTIONS AND ANSWERS.**  
 Perils of the Second Summer.  
 Is it a trip to Wisconsin in September,  
 when he is 4 months old, rather than  
 his second summer? I have heard so  
 much about the dangers of the second  
 summer. (T. A.)

Answer—If the baby is breast fed,  
 it is safe to make the journey now. If  
 he is artificially fed, there would be  
 a danger in getting milk of un-  
 questionable purity along the road.  
 It would be better to boil the milk  
 for five minutes while on the journey,  
 and of course provide proper means of  
 keeping it refrigerated, say a vacuum  
 bottle. The danger which will be the  
 "second summer" are mythical.  
 The second summer holds less perils than  
 the infant has in the first summer.  
 In the old days of faulty refrigeration  
 or none, unclean milk and germs  
 were a danger. Now, with modern  
 nature has a tough time of it in the  
 second summer, if they were hungry  
 enough to survive the first.

Webbed Toes.  
 Two toes on my right foot and three  
 on my left. What is the cause? Do  
 children will they have feet like mine?  
 (C. H.)

Answer—Webbed toes are likely to  
 occur in one or more of your chil-  
 dren, but don't let that worry you for  
 a minute. An operation will correct the  
 condition in a year.

I have a bad habit of sleeping with  
 my mouth wide open. You tell me  
 how to prevent this? (Della F.)

Answer—Sleep on the side, semi-  
 prone, with the head of the bed raised  
 the mouth closed with adhesive plaster  
 or tape. If you find it difficult  
 in breathing when the mouth is  
 closed, you should have the nasal ob-  
 struction treated by your physician.

## Busy Man's Sport Page

**THE PLAYERS**—The players of the Janesville and Lake Mills teams are busy men. They are the champions of the Southern Wisconsin and the Intercounty leagues for 1924, and they are determined to determine the inter-league champion.

This was settled by a telephone conference Thursday night between P. M. Hallett, manager of the Janesville club, and Carl Brown, manager of the Lake Mills outfit.

The first game of the series will be played at Janesville on Sunday at 2:30 p. m. The second game will be played at Lake Mills, Perry field, on Sunday, Sept. 22.

The third game will be played at the Jefferson county fair grounds, Jefferson, on Sunday, Oct. 6. If any additional games are necessary, they will be played at Jefferson, in order to maintain a neutrality.

Port Waukegan, Ill.

This is the long-looked-for series to determine the best team in the two leagues, which operate upon the home talent principle. The Southern Wisconsin circuit confines its players to a radius of eight miles from their home town, while the Intercounty league teams are confined to Jefferson and Dana counties, extending the city of Madison.

Each year, a series of unusually fine games are staged between Port Waukegan, Wis., champions of the Southern Wisconsin league, and the Intercounty champions, who are the Janesville and Lake Mills teams.

**INTERNATIONAL FISHERMEN'S RACE**—The international fishermen's race between U. S. and Canada called off because of unsatisfactory termination of last year's race.

**DIAMOND SPARKLES**—A smashing race concludes low in his western career, awaiting the invasion of a Yankee foe. His tall, brawny build, from Quaker wounds, the brutal fight for the honor of the west.

The Atlanta baseball team will play the leading role in a drama which will be tragic to one of the other.

### WIN AT BARABOO

Awarded Championships on Three Breeds — Shorthorns, Win All Top Places.

Rock county obtained sweet revenge over Dane county during the Holstein judging at the Baraboo fair at Lancaster, the Dane county herdmen were highly elated at running even "with the highly touted Rock county herd."

In the Holstein classes, judged Thursday, Rock county won the class for two cows on the entry of W. J. Ward and Sons, Avalon, with 35 showing. Rock also won first on the Ward two year old, Douglas yearling and Ward junior calf, with the county farm yearling going second. In the group classes the Rock county herd placed second, age herd, get of sire and produce of dam.

Walcowis Otto Hiltland was made grand champion Holstein bull and the Ward two year old grand champion cow.

In the last of the Guernsey classes Rock won first in the age herd and produce, second in calf herd, get of sire and young herd.

The Rock county Milking Shorthorns never lost a ribbon showing at the Baraboo fair. The Baraboo, Franklin Pierce, Broy and Dan Cony, Baraboo, a total of 100 head of dual purpose Shorthorns. The Rock county cattle took the top places in all the classes, with Abraham, hatchling, herd bull of Rye Brothers, adding one more grand championship to its string and Tulliver, a two year old from the same herd, grand champion female.

In the Guernsey, May King's Duke of Waukegan, a herd bull and Jacob of the Vauquiere, age cow of the Dr. W. A. Munn herd, won the championships, the county entries winning the championships of three breeds.

### SEEK NEW C. T. A. IN CLINTON DISTRICT

The sixth Rock county cow testing association is expected to be formed in the Clinton district this year.

R. J. Willis, manager of the Baraboo man plant at Clinton, is interested in the formation of a testing association. He declares that there is less dissatisfaction among producers whose herds are tested for production than who farmers not testing for butter-fat content.

Good records have been made in the five other Rock county testing associations and organized effort would result in doubling the number of associations in the county, since the value of the association work has become so firmly established.

### LAWRENCE SAYS COOLIDGE HAS SOME HOPE HERE

(Continued from page 1.)

mons vote two years ago was due to the fact that he won the republican primaries and there were thousands of regular republicans who disliked LaFollette but voted the straight republican ticket. Also, in those primaries there were thousands of democrats and socialists who helped LaFollette capture the machinery of the republican party.

"The 'Wide Awake' situation. That today the voter has a different situation. The regular republican has Coolidge and Dawes. Many voters who are not particularly perturbed about LaFollette's republicanism who at the same time have the life-long habit of voting a republican ticket, will vote for Coolidge.

Unquestionably, Senator LaFollette will poll less of a republican vote by a good deal than he did two years ago.

To offset his losses, he hopes for some republicans as he will have socialists and democrats, too. Indeed, it is difficult to conceive that there were many voters who failed to vote for LaFollette two years ago and who would vote for him this year. He reached his maximum in 1922 and undoubtedly has lost some since then.

No Help to Democrats. As it is in confirmation of this, these democrats have taken on hope and believe as if they think they had a chance. For the first time in a long while, they have nominated complete tickets throughout the counties and that is significant. Their strategy evidently is to hold the democratic vote in the end to recoup much of it that has been in the hands of assisting LaFollette. The question is whether such tactics will help David or Coolidge. It surely doesn't help LaFollette and it cannot be of much aid to the democratic national ticket, for, by subtracting from LaFollette's vote, the chances of President Coolidge carrying the state are improved. The democrats have not been polling enough votes to assure them of anything but third place in the three-cornered race such as the presidential contest this year. If, therefore, they make an active campaign, they will take away votes from LaFollette.

Privately, there are regular republicans who are happy over what the democrats are doing. The regulars are not well organized and they have division in their own ranks, but they have little influence with the large independent body of voters which has been the main pillar of LaFollette's strength and if the democrats tempt them, so much the better for Coolidge prospects.

An Unequal Situation. Wisconsin presents a unique situation. The republican state machinery is in the hands of LaFollette. The republican state convention has just fulfilled the promise of the LaFollette managers that they would play fair by leaving the republican label to Coolidge and by seeing to it that the requirements of the statute were met in selecting electors who are really Coolidge men. For a time it was thought the LaFollette group might take advantage of the situation and confuse the issue by sticking to the republican label. But as it is to make matters worse, the LaFollette managers have selected Coolidge electors and handed them to the regular republican party—a humiliating situation in politics. The electors chosen are Coolidge men all right, but their very name on the ballot in some cases will

They are now only 175 miles from Orfordville. The county expects to reach the village of Orfordville in another 10 days and finishing of the paving will be completed by the residents for the main stretch has been torn up for several months.

Highway Commissioner Charles H. Moore is hopeful of reaching Lang's hill, two miles west of Orfordville, before weather conditions stop paving operations. Additional work is being secured to run the material as a mixture to this point.

Plank Road Next Year. This will enable the county to make a new set-up for the last run to Broadhead next spring and then move the machinery to east of Janesville in preparation for paving route 20, east of this city.

"It would be fine if we could pave to Broadhead this year but I cannot see how we can do it," declared Commissioner Moore.

## LA FOLLETTE'S SPEECH IN NEW YORK CITY

(BY ASSOCIATED PRESS)

New York—Senator Robert M. La Follette, in Madison Square Garden last night, told the audience he had addressed since announcing his candidacy for president that he did not intend to be diverted from the discussion of the campaign by the foolish and preposterous assertions of his opponents that in some way as progressives desire to weaken or impair the provisions of the constitution of the United States relating to the federal courts.

He made this declaration after assailing the policies and the candidates of the republican and democratic parties, which he asserted are "as like as two peas in a pod," and concluded:

"I propose to keep in the foreground of the discussion throughout this campaign the record of the two old parties in recent years and the policies inaugurated by them under which the railways and other corporations have made larger profits than ever before in the history of the country during the same length of time while labor and the small business men have slid into a bare existence and the farmers have been driven into bankruptcy by the hundreds of thousands and the loss in value of farm lands and farm products has exceeded 10 billions of dollars.

Senators Both Rivals.

"The leaders of both old parties naturally desire to escape discussion of the shameful acts which have produced such results as these. I do not intend that they shall avoid these issues."

Senator La Follette discussed the record of the Harding-Coolidge administration, the acts of which, he contended, "must be judged as a whole," and declared that President Coolidge "knew every act and policy of the last administration because he was a participant in their formation." He referred to John W. Davis as a "certain distinguished lawyer now running for president and trying to get the people to forget his former clients who 'blocked' the public to bring about a reduction in telephone rates in New York."

Declaring that "parties and candidates should be judged on their records and not on pre-election promises," the Wisconsin senator continued:

"The best that the republican party, for example, can offer with its present candidate, is four years more of misgovernment such as we have witnessed during the last four years—the same control by powerful private interests, the same cynical bestowal of special privileges on the favored few, the same shameful betrayals of the public trust."

"By an extraordinary procedure adopted at the beginning of President Harding's administration, the vice president was made a member of the president's cabinet, so that he might not only be fully informed of every policy and action, but so that he might also give his counsel and advice. He sat with the cabinet while it discussed, according to the testimony of those who were present, the transfer of Teapot Dome and the other naval oil reserves from the navy department to the interior department, so that the corrupt lease of these great properties might be made. He knew every act and every policy of the last administration because he was a participant in their formation."

"Corruption in Air."

"But even if the then vice president had not as a member of the cabinet participated in the making of policies, it would have made little difference. All that was necessary in Washington during the last four years was to take the most honest good hearing, to gain the knowledge that a monstrous orgy of corruption was taking place."

"A man might have been blind, a man might have been dumb, but if he still retained his sense of hearing, he would have learned from trustworthy sources the nature and extent of the corruption. The department of the interior under Secretary Fall was a vast swamp of corruption and the sources and that almost every department was honey-combed with corruption. It was heard in the corridors of the capitol, in committee rooms, in lobbies, and in business houses. There was no escape. It was everywhere."

"I had no private source of information when I exposed the corrupt leasing of Teapot Dome, and forced the senate by a unanimous vote to order an investigation. I merely dared to charge every leading member of the senate knew. I was able in that speech to reveal substantially every important fact regarding the corrupt leasing of the oil reserves, except the corrupt consideration received by Fall from Delaney and Sinclair. I did not know that \$100,000 in cash in hand was brought from New York to Washington, and delivered in a black bag to Albert B. Fall. But the other important facts, including the great profits made by the insiders in the stock market, were laid before the senate and the nation. There was no escape. The president within five feet of the vice president, hearing every word of an indictment that forced even the old guard of the senate to consent to an investigation."

"Scarcely a day passed without sources of information when he made his charges against Daugherty and initiated the investigation that drove him from office. He merely dared tell the world the truths that both republican and democratic senators knew as well as he did."

Housekeeping Needed.

"Knowing these facts there was only one way in which a member of that administration devoted to the public interest could relieve the public from full responsibility for its every act. That was by cleaning house as soon as the power came into his hands. But that does not mean that the contrary every member of the cabinet was kept in office, and ex-Secretary Fall, then known to be in the employ of the present republican candidate, when he came to Washington to give his perjured testimony. Even after the evidence of fraud and corruption became overwhelming, Denby was retained in the cabinet, and they were allowed to stay, as during its first year, were dictated not by the individuals who happened to occupy the White House, but by the forces that control them and dominate the republican, as well as the democratic party. The presidents were merely the servants of the system."

"But there is another reason, far more powerful, why the acts of the last administration must be regarded as a whole, free from all question of personality. That reason is that the policies, appointments and actions of that administration, during its last year, as during its first year, were dictated not by the individuals who happened to occupy the White House, but by the forces that control them and dominate the republican, as well as the democratic party. The presidents were merely the servants of the system."

"In proof of this I cite the fact that the record of the Taft administration and the record of the

# Beginning Tomorrow! Leath's Advanced Fall LAYAWAY RUG SALE

A Week of Lower Rug Prices

Our Entire New Fall Rug Stocks on Sale

## Do You Buy Your Coal in Summer?

To have it ready for winter, perhaps, but principally because you can save money. The Layaway Rug Sale is the same proposition.

## A Small Payment

At the time of selection, just to show good faith—we'll hold the rug until you want it, then you can finish paying.

WHEN Leath's first started these Lay-away Rug Sales, it was because we wanted to sell more rugs—today the same condition exists—we don't ever expect to sell as many rugs as we want to. It was logical to believe that if advantages were great enough, people would buy rugs in advance of their needs, particularly if paying could be deferred until later.

## The Success of these Sales has Vindicated Our Judgement

Now beginning tomorrow another—Leath Layaway Rug Sale—a little in advance of the fall demand, but at prices positively less than will be in effect then. Those who remember former Lay-away Sales, and also remember that afterwards Rug prices were higher, will know that the advantages of this event are Real Advantages.

## Rug Prices Going Up

So say many press notices we have read in our trade journals, in fact we've received new, higher prices from some rug makers. Certainly Rug prices during the fall season are going to be higher than during Leath's Layaway Rug Sale—that's sure, whether manufacturers raise their prices or not.

## Choose the New Rugs You Want in the Layaway Rug Sale—Because—

You get first choice of the big new fall stocks just received. You get first chance to pick the new patterns and colors.

You get price advantages that will be impossible later. You don't have to pay until we deliver the rug.

## COUNTY'S POTATO CROP SETS RECORD

Home Grown Variety Best in History. Say Grocers—Prices Reasonable.

Rock county has this year raised the best crop of potatoes in her history, according to local merchants, most of whom will handle the home-grown variety almost exclusively this season.

Prices will be as reasonable as usual, but the quality will be far in advance of any so far if those on the market to date are any indication. Prices Friday were 22 cents a peck, or \$1 a bushel, but special prices announced for Saturday put them as low as 19 cents peck.

Rock county has produced the best crop of potatoes in quality and quantity that it has ever raised," according to J. F. Parr, local merchant. "I would like everyone to buy home-grown potatoes this year, as they will not be disappointed in quality. There is no necessity of shipping any in this year."

Sweet potatoes, now selling at three pounds for 25 cents, or higher, will be down to 6 cents pound, at a few stores on Saturday, they announced.

**Grapes Are Arriving**  
In the fruit line, grapes occupy the outstanding place this week with large displays of Hays and Malagas in every store. The Hays are starting new, and will continue for several days, while the Moore's Early are expected about September 25. The Concord, which are at least three weeks late this year, are expected to commence about October 1. Heavy crops are almost certain, and prices will undoubtedly be lower than in many years.

Shipped-in grapes are much cheaper than usual this season, with the large red variety at 12 to 15 cents pound, and the green ones at two pounds for 25 cents.

Special prices for Saturday at some stores place them at 15 cents per pound. The few Concord which are now for sale are 55 cents basket up.

**Canning Peas Due**  
Heavy receipts of canning peas are expected in about a week or a little more, but there are a few now and the price is high. Baskets are now at the height of their season, but the price is high—\$3.60 to \$3.75 a bushel, or 95 to \$1 a peck.

The second grade fruit is about \$2.75. This variety will soon be gone.

Michigan canning plums are proving popular at the present time, and after this week will start to decline in quantity. Both the red and blue kinds are 15 cents a quart, and the usual Michigan canning kind are 65 cents peck. Green sage plums are 15 cents a box, and large blue plums, 45 cents a large basket, or 10 cents a dozen.

Peaches still continue to be in demand for canning purposes, though prices are above their usual level, and are 10 to 15 cents a bushel, or 20 to 25 cents a quart.

**Tomatoes Are Scarce**  
The tomato crop, so far as canning is concerned, is a failure this year, and only a few are left. 10 cents per pound are seen in the place of the usual bushel baskets which usually sell for a dollar or less.

The first of the home-grown muskmelons appeared this week-end, and are going for 10 to 25 cents each. The large Casabas and honey-dews, both very fine, with yellow meat, are 40 to 50 cents each; and the pink meats are 15 cents each. Watermelons, which are now at a premium, are 10 cents each, or as low as 25 cents each, with most at 40 to 50 cents.

Capo Cod cranberries appeared this week, at 15 cents pound. Other fruits include all varieties of apples, which are extremely abundant, at 5 cents per pound, except on fancy kinds, which are 10 cents; eating pears, 45 cents a dozen; cantaloupes, 55 cents; oranges, 40 to 50 cents; grapefruit, 15 cents each; bananas, 10 cents; and sugar pears, 40 cents per 20 cents.

Mushrooms are \$1.50 per pound.

**Vegetable Prices**  
All new vegetables, home-grown, are now on the market. Cashed turnips are 10 cents bunch; beets, 10; wax beans, 15 cents pound; spinach, 20 cents pound; leaf lettuce, 20 cents; egg plant, 15 cents each; red cabbage, 30 cents; dill, 10 cents bunch; cauliflower, 20 to 50 cents each, according to size; head lettuce, 15 to 20 cents; red peppers, 7 cents; green peppers, 2 for 10; celery, 10 cents; Spanish onions, 10 cents; pumpkins, 15 to 25 cents; cress-peck squash, 10 cents; rutabaga, 5 to 4 cents pound; carrots, 10 cents; rutabaga, 10 cents hundred up and horse radish root, 20 cents pound.
